introduces history and basics of human communication covering the communication process functions of communication language and communication non verbal communication interpersonal communication listening public speaking and mass communication

the study of media effects is one of the most central to the discipline of communication and encompasses a vast array of theoretical perspectives methodological tools and application to important social contexts in light of this importance as well as the rapid changes in the media environment that have occurred during the past 20 years this handbook of media effects theorizing and research explores where media effects research has been over the past several decades and equally important where it would be most fruitful to go in the years ahead in addition to providing a comprehensive framework for those interested in media effects the handbook also emphasizes the changing nature of the media landscape thus new technologies not only provide new venues for research but they also represent challenges to many existing media effects theories that were formulated prior to the widespread adoption of the internet the contemporary diversity of the field and its research is seen in chapters addressing sociological cultural and organizational approaches and in chapters on specific approaches domains and context related effects throughout the handbook and within each chapter authors address the

following issues 1 historical context on theory development area of study 2 theory explication and theoretical developments through to the present 3 typical method of study research approach moderators 4 conceptualization of the audience 5 the impact of new media environments 6 criticisms/controversies and 7 directions for future research section i begins with an overview of the field conceptualization of media effects and the editors goals for the volume and then focuses on the range of methodologies both quantitative and qualitative methods used in the study of media effects section ii focuses on dominant theoretical approaches in the media effects area from a more societal perspective included here are some of the most dominant theoretical perspectives in the media effects realm i.e. cultivation agenda setting framing that relate to broad reaching effects of both entertainment and news programming the section then focuses on related theories that though less developed have received significant attention in the literature to expand the horizon of this handbook a chapter on cultural studies is included to engage more qualitative views of media's societal effects section iii focuses on issues of message selection and processing that are central to the mass media literature these chapters cut across application contexts for examples the emotion chapter touches on entertainment persuasion and children's media the social influence environmental aspects chapter includes issues of co-viewing in families among peers etc section iv reflects a dominant trend in media effects literature that related to persuasion and learning and traces its theoretical perspectives including major theories of persuasion and especially social cognitive theory through the various contexts in which media have such effects such as health advertising media literacy and the like section v explores the contexts and audiences that have been traditional foci of media effects research violence children body image video games sports etc in each chapter authors address the theories most applicable to those contexts further expanding the theoretical offerings of this handbook the focus on how this sort of research is typically

conducted methodologically and how it will need to change in light of new technologies and media advances make these chapters unique section vi expands on existing work by focusing on a concern central and unique to the communication discipline message medium and how it influences effects ranging from what messages are attended to e g formal features how we spend our time e g displacement effects and even how we think e g medium theory

with more than 300 entries these two volumes provide a one stop source for a comprehensive overview of communication theory offering current descriptions of theories as well as the background issues and concepts that comprise these theories this is the first resource to summarize in one place the diversity of theory in the communication field key themes applications and contexts critical orientations cultural orientations cybernetic and systems orientations feminist orientations group and organizational concepts information media and communication technology international and global concepts interpersonal concepts non western orientations paradigms traditions and schools philosophical orientations psycho cognitive orientations rhetorical orientations semiotic linguistic and discursive orientations social interactional orientations theory metatheory methodology and inquiry
