bound to be free explores the scriptural concepts of church ekklesia freedom eleutheria and truthful speech parrhesia showing not only that the proper meanings of three concepts interpenetrate one another but also that rending them asunder lies at the root of christian division today according to reinhard hutter the crucial interrelationship of these three concepts has long been obscured by ongoing church division separated from each other many christians assume that freedom can be

maintained and truthful speech preserved only at the cost of unity others assume that christian unity can be attained only if freedom and truthful speech are narrowly circumscribed in their proper exercise christian division issues from the all too familiar individualistic accounts of church freedom and speech that have haunted modernity and clouded the proclamation of the gospel this book shows that here at the beginning of the twenty first century it is imperative that christians attend to this crucial interrelationship and its source in the god of the gospel hutter discusses the meaning role and importance of each concept in turn engaging along the way a wide range of classical and contemporary voices in theology philosophy and culture that reveal in different ways how church freedom and truthful speech support one another bound to be free is a groundbreaking work that challenges common approaches to ecumenism and points a fruitful new course ahead
